1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The information disclosed in the notes to consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 1997 has not changed materially unless otherwise disclosed herein. Financial information as of December 31, 1997 included in these financial statements has been derived from the audited consolidated financial statements included in that report. In management's opinion all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the interim periods have been made.

Results of operations are not necessarily indicative of the results that may be expected for future interim periods or for the full year.

Net Income Per Share - The following table presents additional information about basic and diluted weighted-average shares outstanding:

(in thousands)

	Three months ended March 31,	
	1998	1997
Basic weighted-average shares outstanding	80,358	80,496
Effect of dilutive securities:		
Unvested restricted stock held by employees	198	207
Stock options held by employees	1,060	885
Diluted weighted-average shares outstanding	81,616	81,588

Comprehensive Income - The Company adopted Financial Accounting Standard No. 130 - Reporting Comprehensive Income in the first quarter of 1998.

2. ACQUISITIONS AND DIVESTITURES

A. Acquisitions

1998 - There were no acquisitions in the three months ended March 31, 1998.

1997 - There were no acquisitions in the three months ended March 31, 1997.

In October the Company acquired the newspaper and broadcast operations of Harte-Hanks Communications ("Harte-Hanks") for approximately \$790,000,000 in cash. The Harte-Hanks newspaper operations include daily newspapers in Abilene, Corpus Christi, Plano, San Angelo and Wichita Falls, Texas, and a daily newspaper in Anderson, South Carolina. The Company immediately traded the Harte-Hanks broadcast operations for an approximate 56% controlling interest in The Television Food Network and \$75,000,000 in cash. In August the Company traded its daily newspapers in Monterey and San Luis Obispo, California, for the daily newspaper in Boulder, Colorado.

The acquisitions have been accounted for as purchases. The acquired operations have been included in the Consolidated Statements of Income from the dates of acquisition. The following table summarizes, on an unaudited pro forma basis, the estimated combined results of operations of the Company and the acquired operations assuming the transactions had taken place at the beginning of the period. The pro forma information includes adjustments for interest expense that would have been incurred to finance the acquisition, additional depreciation based on the fair market value of the property, plant, and equipment, and amortization of the intangible assets acquired. The pro forma information excludes the results of operations of the Monterey and San Luis Obispo newspapers, and excludes the gain recognized on the transaction. The unaudited pro forma results of operations are not necessarily indicative of the results that actually would have occurred had the acquisition been completed at the beginning of the period.

B. Divestitures

1998 - The Company expects to sell Scripps Howard Productions, its Los Angeles-based fiction television production operation, in 1998.

1997 - In August the Company traded its Monterey and San Luis Obispo, California, daily newspapers for the daily newspaper in Boulder, Colorado, and in October terminated the joint operating agency and ceased operations of its newspaper in El Paso, Texas.

Included in the consolidated financial statements are the following results of divested operations (excluding gains on sale):

(in thousands)

	1998	Three months ended March 31, 1997
Operating revenues		\$ 20,100
Operating income (loss)	\$ (900)	300

3. LONG-TERM DEBT

Long-term debt consisted of the following:

(in thousands)

	March 31, 1998	As of December 31, 1997	March 31, 1997
Variable rate credit facilities			
6.625% note, due in 2007	\$ 478,480	\$ 541,459

Long-term debt (less current portion)	\$ 601,849	\$ 601,852	\$ 31,806

The Company has a Competitive Advance and Revolving Credit Facility Agreement which permits aggregate borrowings up to \$800,000,000 (the "Variable Rate Credit Facilities"). The Variable Rate Credit Facilities are comprised of two unsecured lines, one limited to \$400,000,000 principal amount maturing in 1998, and the other limited to \$400,000,000 principal amount maturing in 2002. Borrowings under the Variable Rate Credit Facilities are available on a committed revolving credit basis at the Company's choice of three short-term rates or through an auction procedure at the time of each borrowing. The Variable Rate Credit Facilities are also used by the Company in whole or in part, in lieu of direct borrowings, as credit support for its commercial paper. The weighted-average interest rate on the Variable Rate Credit Facilities was 5.60% at March 31, 1998, and 5.85% at December 31, 1997.

Certain long-term debt agreements contain maintenance requirements on net worth and coverage of interest expense and restrictions on incurrence of additional indebtedness. The Company is in compliance with all debt covenants.

Current maturities of long-term debt are classified as long-term to the extent they can be refinanced under existing long-term credit commitments.

4. SEGMENT INFORMATION

The Company's reportable segments are strategic businesses that offer different products and services. They are managed separately because each business requires different technology and marketing strategies. The Company evaluates performance based on results of operations before income taxes, interest, unusual items, and foreign exchange gains and losses. Intersegment sales, which primarily consist of programming produced for Home & Garden Television and Food Network, are generally recorded at cost.

No single customer provides more than 10% of the Company's revenue. The Company derives less than 10% of its revenues from markets outside of the U.S.

Financial information for the Company's business segments is as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

The E. W. Scripps Company ("Company") operates in three reportable segments: newspapers, broadcast television and category television. The newspaper segment includes 20 daily newspapers in the U.S. The broadcast television segment includes nine network-affiliated stations. Category television includes Home & Garden Television ("HGTV"), The Television Food Network ("Food Network"), and the Company's 12% equity interest in SportSouth, a regional cable television network. Licensing and other media aggregates the Company's operating segments that are too small to report separately, including syndication and licensing of news features and comics, television program production, and publication of independent telephone directories.

All per share disclosures included in management's discussion and analysis of financial condition and results of operation are on a diluted basis.

Consolidated results of continuing operations were as follows:

Earnings before interest, income taxes, depreciation and amortization ("EBITDA") is included in the discussion of segment results because:

Management believes the year-over-year change in EBITDA is a more useful measure of year-over-year economic performance than the change in operating income because, combined with information on capital spending plans, it is more reliable. Changes in amortization and depreciation have no impact on economic performance. Depreciation is a function of capital spending, which is important and is separately disclosed.

Banks and other lenders use EBITDA to determine the Company's borrowing capacity.

Financial analysts and acquirors use EBITDA, combined with capital spending requirements, to value communications media companies.

EBITDA should not, however, be construed as an alternative measure of the amount of the Company's income or cash flows from operating activities as EBITDA excludes significant costs of doing business.

In October 1997 the Company acquired the newspaper and broadcast operations of Harte-Hanks Communications ("Harte-Hanks"). The Company immediately traded the Harte-Hanks broadcast operations for an approximate 56% controlling interest in Food Network. The average balance of outstanding debt increased \$620,000,000 to \$742,000,000 as long-term debt was used to finance the acquisitions. The estimated reduction in earnings per share due to the HHC Newspaper Operations and Food Network acquisitions was \$.08 per share in the first quarter of 1998.

The Company expects to sell Scripps Howard Productions ("SHP"), its Los Angeles-based fiction television production operation, in 1998. In August 1997 the Company traded its Monterey and San Luis Obispo, California, daily newspapers for the daily newspaper in Boulder, Colorado. In October 1997 the Company terminated the joint operating agency and ceased operations of its newspaper in El Paso, Texas. Operating results for SHP and the Monterey, San Luis Obispo, and El Paso newspapers are included in "Divested Operations".

Licensing and other media revenues increased as the Company published its first independent yellow pages directory.

Operating results for the Company's reportable segments, excluding Divested Operations, are presented on the following pages. The results of Divested Operations are excluded from the segment operating results because management believes they are not relevant to understanding the Company's ongoing operations.

The acquired newspapers provided 76% of the increase in total operating revenues. Total operating revenues increased 7.1% and advertising revenues increased 7.9% on a pro forma basis, assuming all newspapers were owned for the full period in both years. Advertising volume increased 5.1% on the same pro forma basis.

Excluding the acquired newspapers, employee compensation increased 4.8% and other operating expenses increased 7.7% in the first quarter.

Newsprint prices in the first quarter of 1998 were approximately 13% higher than in the first quarter of 1997. On a pro forma basis, consumption increased approximately 5%. At the current price, the cost of newsprint will increase approximately 30% in the second quarter and 20% in the second half of the year, including the effects of the acquired newspapers.

The demand for advertising time was soft in most of the Company's television markets in the first quarter and is expected to remain soft in the second quarter. Weak ratings for ABC network programming in the Company's six largest markets contributed to the dampened revenue growth.

The increase in program costs is primarily due to the higher cost of the popular talk show "The Rosie O'Donnell Show," which is carried by five stations. The costs of developing locally-produced shows contributed to the increase in other operating expenses. The increase in capital expenditures is due to the construction of a new building for the Phoenix station.

The October 1997 acquisition of Food Network provided approximately 45% of the increase in operating revenues. The remaining increase in advertising and affiliate fee revenues is primarily due to the increase in cable television systems that carry HGTV, and, therefore, the increase in potential audience. According to the Nielsen Homevideo Index, HGTV was telecast to 40.2 million homes in March 1998, up 15.1 million from March 1997. Food Network was telecast to 31.7 million homes in March 1998, up 9.7 million from March 1997.

Other operating revenues includes the sale of merchandise and the sale of programming in international markets.

The increases in operating expenses are consistent with the increases in revenue.

EBITDA for HGTV was \$1,800,000 in 1998 and (\$2,100,000) in 1997. Operating income (losses) for HGTV totaled \$1,200,000, \$600,000 after-tax, \$.01 per share, in 1998 and (\$2,600,000), (\$1,600,000) after-tax, (\$.02) per share, in 1997. EBITDA for Food Network was (\$2,400,000) in 1998. Operating income (losses) for Food Network totaled (\$4,400,000), (\$2,900,000) after-tax, (\$.04) per share, in 1998.

LIQUIDITY AND CAPITAL RESOURCES

The Company generates significant cash flow from operating activities, primarily from its newspaper and broadcast television operating segments. There are no significant legal or other restrictions on the transfer of funds among the Company's business segments.

Cash flow provided by the operating activities of the newspaper and broadcast television segments in excess of the capital expenditures of those segments are used primarily to invest in the category television segment, to fund corporate expenditures, or to invest in new businesses. Management expects total cash flow from operating activities in 1998 will be sufficient to meet the Company's expected total capital expenditures, required interest payments and dividend payments. The Company expects to extend the \$400,000,000 one-year portion of its variable rate credit facility, or to refinance the borrowings under that line.

Cash flow provided by continuing operating activities was \$89,900,000 in 1998 compared to \$54,900,000 in 1997. The improvement was due to the increase in EBITDA and a decrease in accounts receivable from customers.

In 1997 the Board of Directors authorized, subject to business and market conditions, the purchase of up to 4,000,000 of the Company's Class A Common Shares. The Company did not purchase any shares in the first quarter of 1998.

Net debt (borrowings less cash equivalent and other short-term investments) totaled \$707,000,000 at March 31, 1998 and was 40% of total capitalization. Management believes the Company's cash flow from operations and substantial borrowing capacity, taken together, provide adequate resources to fund expansion of existing businesses and the development or acquisition of new businesses.
